

The Father I Had

Father and son: arguably the most complex of all family relationships. But what happens when your dad is a manic-depressive who paints the front door in the middle of the night and sends good-wishes to Michael Crawford scrawled on a pair of underpants? Martin Townsend grew up with a father, Ron, who had suffered recurring mental illness since the early 1950s. At the slightest emotional trigger he could turn from a loving and compassionate dad to a restless, dead-eyed depressive or a spiteful, bullying monster. In *The Father I Had*, Martin Townsend, editor of the *Sunday Express*, paints a powerful, often painful portrait of life with his dad. From the soaring, often hilarious highs to the horrific lows of his father's three suicide attempts, he tells a story of pain, courage and resilience and produces a moving and account of a close family nearly torn apart by mental illness.
