

Sheltering Women: Negotiating Gender and Violence in Northern Italy

Residents of Parma, Italy pride themselves on their sophistication and connection to European modernity. But despite a reputation for civility, intimate partner violence continues to take place, largely hidden from public view. Offering a detailed ethnography of two women sheltered on the left, the other Catholic, this book provides the political, cultural, and legal contexts of competing explanations for intimate partner violence. Some contend that violence against women reflects the cultural and historical gender inequalities embedded in Italian society, including old-fashioned or traditional understandings of masculinity. Others argue that it stems from confusion and ambivalence over new or modern forms of gender relations. While the first explanation places the blame on tradition and the second cites the transition to modernity, both emphasize societal understandings of gender and point to collective, rather than individual, responsibility. Through an intimate portrayal of everyday life, *Sheltering Women* reveals how violence against women can be studied as one part of a continuum of locally relevant understandings of gender relations and gender change.
